## Bel Mondo Beauty Expands Into Middle East And North Africa Markets

### Company Announces Agreement with *El Gergawy For Trade* To Distribute Its Bio Cellulose Mask Line to Medical Aesthetics Sector

**Laurel Springs, NJ (PR.com) – October 3, 2017** – Bel Mondo Beauty announced today it has reached a five-year agreement with *El Gergawy For Trade* ([www.cosmo-act.com](http://www.cosmo-act.com)) to distribute the skin care brand's full line of bio cellulose treatment masks in key Middle East and North African (MENA) markets.

Based in Cairo, *El Gergawy* will focus initially on establishing Bel Mondo's premium grade products with aesthetics practitioners in Egypt, before expanding to Saudi Arabia, Qatar, Kuwait, and the United Arab Emirates.

Sheet masks are one of the skin care segment's strongest niche categories. *EuroMonitor* and other market research organizations project as much as 8% CAGR for sheet masks through 2019, with the global market expected to exceed \$330 million annually by 2024.

Bel Mondo Beauty develops and markets sheet masks made from **bio cellulose** – an advanced fiber with hydrating and calming properties that are ideal for skin repair and maintenance. The company targets estheticians and skin care professionals, who incorporate Bel Mondo's masks as therapeutic add-ons to popular rejuvenating services such as peels, dermaplaning, microdermabrasion, micro needling, and light therapy.

Mahmoud Ali Elgergawy, President of *El Gergawy For Trade*, expects broad acceptance of the Bel Mondo Beauty line in the MENA region.

"Trials for Bel Mondo's products have gone exceedingly well," noted Elgergawy. "The potential for bio cellulose products within MENA is quite appealing, both with the professional channel (medical tourism) and with discerning consumers seeking authentic spa-quality treatments."

Bel Mondo Beauty was the first U.S. brand to develop and market treatment masks that exclusively utilize bio cellulose fabrics. It offers four types of full facial sheet masks – **Brightening, Calming, Anti-Aging, and Ultra-Hydrating** – as well as specialty treatment masks for under eye care and the décolletage zone. Bel Mondo's premium product line is featured in approximately 200 spas, medical spas, and resorts domestically, and sold in a dozen retail outlets throughout Hong Kong.
